"Mareca f. Tonda".

since a married couple or a couple
who live together. This is a very old German
idea. In 1945 it started in West Germany. The
same name from the USSR but it is not
sure whether they fled in 48 or whether
they were in Germany at the end of
the war. They were very productive
agents. They were run for a while
by the East German intelligence. Vienna
and James handled this at one time
or another. Meetings were held in
Berlin, Switzerland, France, The Hague,
London, in places of refuge on various
politics, A15 of BND and they spread
here in the 15 world. Either the
woman, or both are alcoholics. They
did not live in Berlin, but somewhere
in West Germany. B. Hinck's contact was
broken and re-established several times as
they ~~were~~ always demanded enormous fees.
B. Hinck's family were active as journalists.
They might be brothers & sisters, rather
than married, but in any event, they
lived together. Both speak Yiddish.

MONDICH/1

Means nothing, nor do first names. B never heard true names of Tonda-Maryna. B does not know how they were recruited, but it must have been close to 20 years ago.

Tomes used to meet them before he went to Berlin. The meets were in Austria & Swiss in the 50's. Meets may now take place in Austria (B heard something to this effect) and if that is the case Malenovska may be meeting them as he came from the old DZ refugee group of Dgt. 4.

If meetings are now being held in Austria, this may be the reason why Tomes came to Austria 2 or 3 times while B was there.

One of the couple was to go to Prag in about 63 or 64 as the C45 had some reservations about the operation. B does not know how the travel was accomplished. Patynar, for example, went to the CSSR in ca. 63 on his own passport, as he had parents in the CSSR whom he could visit as a rover.

@Hansen, who also went to CSSR in ca. 63, travelled to Vienna, gave his

Tonda

B thinks our brief history of the Mondick couple sounds like Tonda/Maryna.

B once heard Tomes ^{Formanek} talking about the woman, whom he had recently met alone. Tomes was annoyed at how loud & vulgar she had become after drinking.

B is sure the woman also knew @ Malinski and @ Rybin.

B suspects Monditsch's trips to Salzburg to collect info also covered meetings with the CIS.

→ B thinks one or the other of the couple made the meetings with the CIS — rarely both.

On about May 18, Formanek was in Vienna. B suspects he met the wife, because he was personally involved in this case. B might have heard the comments on her loudness and vulgarity from Formanek at that time.

→ The couple reported principally on emigres, CIS and A15 personnel. Tomes/

help case officers who speak Czech, no English.
Case would work only in Czech, no English.
must speak Czech.

28.XII.68/AM

1954 Stanislav TOMAS formerly FRANK

@ Formanek

Major. A deputy chief of CS Dept. 6 for Germany joined the MVA in 48 in CE in Pres. The Cr. 52 went into the CS. Worked first in the Austrian section. In Cr. 55-56 he was two years in Vienna. Did not do well as he spoke no German & this could do very little in Vienna. On his return to Hqs, became a deputy to CMOR in (old) Dept. 4 specializing in Germany, enemies & RFE. On that basis he probably had personal contact to TONDY & MARYNA. He may also have known POP. He was particularly interested in CS ops against RFE.

In Spring 61, he went into the MFA (for cover). His MFA boss was Dr PITHART (who hated Tomas, because Tomas had been involved in Pithart's arrest and interrogation in the early 50's. In June 61 went to E. Berlin as resident & was there till 65. He was not personally involved in ops and the residents had a reputation for being the weakest of the major posts at that time. In E. Berlin he had liaison to the E. Germans & direct contact to the Soviet resident. He lived in Berlin - Pankow, Pfleiderasse.

In '53, or a year, now, was taken into CIS as head of the 4th. dept. (Germany), not because of previous work, success, in the field German field. Made it into best dept. in the CIS, where he was then CIS, esp. 4th. dept., enjoyed its greatest success, and in '60, '61, also line for the series of flaps which occurred at that time.

Horwitz, the chief of the CIS, wanted to get rid of him, because they didn't get along for personal business reasons. To do this, they shipped him off to the "Year CP party school." When he returned, came back as deputy chief of the 6th. dept. for work against ^{AMIS} CP and the BND, where he still is.

(At top: B
(about)) Neurath on overseas tour; has had a few TDMS to
Belgium, France, Suisse, and Austria, and E. Germany. These
trips are, at the longest, 2 weeks. This trips were all
in the period '58-61. If he had nothing, they had to be
by a guest speaker, however, he was always accompanied
by somebody, so the companion could hear, read or interpret.
On our trip, he was accompanied by his deputy, Tonnes, a
former member of FRANK. Trip was to Belgium. (Tonnes can't speak
Germany) He was in Vienna in '65-66 for 1 1/2 weeks,
accompanied by Kneissl.

I don't think that he had any agents, but he could
have had a friend in Moscow, not as a CIO but as
a contact. Both agents speak Russian.

One of the most competent Hqs. CIO's in the CIS.
Outstanding operations, analyst, very imaginative..
